Spiritual Progression of Man

You gave me life. Only through you may I discover the meaning of this life. I cannot realise the fullness of the greater beyond while I am upon the earth except through your direction. Men and women upon the earth who cannot relate to your omnipotence have fear in their hearts; fear of death and fear of the unknown. They are afraid of what will happen to them on the passing.

Upon my passing may I welcome the River of Cleansing that will show me the result of my efforts upon earth for I wish to be welcomed by my spiritual family. While I am living upon earth all memory of great knowledge and wisdom is not realised through the conscious mind. It is hidden within the spiritual mind and I seek to release it.

Teach me of love. Teach me of joy. Teach me of all things that are of the essence of the one spirit that continues beyond the passing from earth. Teach me to understand why I am here. Teach me how to draw to myself all experiences that will show me how to be pure and peaceful.
